* Appearance

XMQ6800 is a successful upgraded product of KING LONG after improving products with sufficient research to market demands and it is rare 8-meter bus with engine rear mounted in the European market. It leads the trend with simple and smooth curve which describes out a round and mellow vehicle modal and it can be very stable while it can also move very fast. The symbol of a crescent moon outside makes the bus looks more attractive. The inside decoration is luxurious combined with beauty and comfort. The noise reduction system is equipped in the whole vehicle and the low-noise rear axle with large torque is adopted to reduce the in-car noise efficiently in order to build quiet and sweet journey atmosphere. Its reliability and cost performance have been increased thoroughly by adopting the mature assembly and parts which are advanced both home and abroad. XMQ6800 is an excellent production integrating with numerous great achievements, and it will and must be popular in the European medium vehicle market.

>> The driving eyesight is widened by matching the round face and large glass.

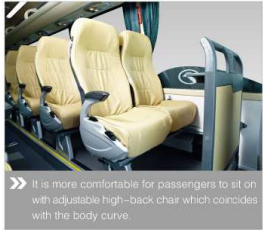

>> The space is utilized with high efficiency. The volume of luggage tank is enlarged with the middle door installed behind the rear axis.

>> The mobility is more obvious with the fashionable light.

>> It is more convenient for the passengers to get off with a unique rear door.

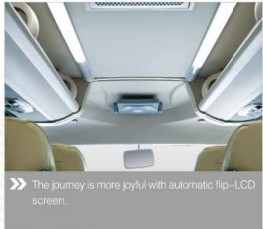

» It is more comfortable for passengers to sit on with adjustable high-back chair which coincides with the body curve.

» Luggage rack tilting design can prevent luggage from falling down, and with blue night lamp for night operation which is friendly for using.

» Sweetness of journey is doubled with light with hide-inside air conditioner outlet combining.

» The journey is more joyful with automatic flip-LCD screen.

» The safety is guaranteed with a monitor inside bus.
